Table Of Contents

SECTION I: ALL ABOUT THE L.A.M.P. FRAMEWORK

1. INTRODUCTION TO LINUX 1

OVERVIEW OF LINUX 1
LINUX DISTRIBUTIONS 2
LINUX IS 3
WHICH DISTRIBUTION SHOULD BE INSTALLED 3
Our Recommendation 3
OBTAINING CENTOS 4

2. INTRODUCTION TO APACHE 5

What Is A Web Server 5
Unique Address 6
Web Hosts 6
Request And Response 6
HISTORY OF APACHE 7
OBTAINING APACHE 8

3. INTRODUCTION TO MySQL 9

HISTORY OF MySQL 10
FEATURES OF MySQL 5.4 11
OBTAINING MySQL 11

4. INTRODUCTION TO PHP 13

PHP Origin 14
PHP Revision History 15
PHP/FI 2.0 15
PHP 3 15
PHP 4 16
PHP 5 17
Object Oriented Support 17
Improved MySQL Extension 17
Flat File Database, SQLite 18
PDO Extension 18
Error Handling With Exceptions 19
XML Tools 19
Iterators 19
Code Introspection Using Reflection Classes 20
Compliant HTML 20
Command-line Processing 20
PHP 6 20
Improved Unicode support 20
Namespaces 21

SOAP 21
XML 21
Deprecated 21
Benefits In Running PHP As A Server Side Script 22
Drawbacks In Running PHP As A Server Side Script 22
What Is A PHP File 22
Why PHP 23
ZEND AND PHP 23

5. HOW THE L.A.M.P. FRAMEWORK WORKS 25

THE LAMP PROGRAMMING FRAMEWORK 26
The LAMP Framework On Internet 28
The Server Side Architecture Decomposed 30

SECTION II: SETTING UP THE L.A.M.P. ENVIRONMEN

6. INSTALLING LINUX - CENTOS 31

USING THE BOOT LOADER SOFTWARE 46

7. INSTALLING APACHE 59

DOWNLOADING APACHE 2.2 59
ERASING AN OLDER VERSION IF IT EXISTS 60
INSTALLING APACHE 64
The Configure Command 65
The Make Command 67
The Make Install Command 68
TESTING APACHE 2.2 69
THE DIRECTORY TREE STRUCTURE OF APACHE 71
APACHE'S http.conf FILE 72
Modules 72
<IfModule> Block 73
LoadModule Directive 73
Directives In httpd.conf 74
Virtual Hosts 77
Name Based Virtual Hosts 78
CONFIGURING APACHE WEB SERVER 79
RESTARTING APACHE 2.2 80
Manual Startup Of Apache 80
Automatic Startup of Apache 81

8. INSTALLING MySQL 83

DOWNLOADING MySQL 5.4 83
ERASING AN OLDER VERSION IF IT EXISTS 84

INSTALLING MySQL 88
The MySQL Database - Engine Install Process 90
MySQL Database - Interactive Character Based - Client Install 91
MySQL Database - Shared Install 91
MySQL Database - Devel Install 92
MySQL Database - Embedded Install 92
MySQL Database - Debuginfo Install 92
MySQL Database - Test Install 93
TESTING MySQL 93
CHANGING THE DEFAULT DATABASE STORAGE ENGINE 94
Starting And Stopping MySQL 96

9. INSTALLING PHP 99

DOWNLOADING PHP 99
DOWNLOADING ICU FOR PHP 6 99
INSTALLING ICU 100
INSTALLING PHP 105
The Configure Command 107
The MySQL Native Driver [mysqlnd] 109
The Make Command 110
The Make Install Command 111
BINDING PHP WITH APACHE 2.2 113
TESTING PHP / APACHE 115

10. GETTING STARTED 117

CREATING THE CODE SPEC FOLDER 117
CREATING A NAMED VIRTUAL HOST 118
ADDING THE NAMED VIRTUAL HOST TO THE hosts FILE 119
RESTARTING THE WEB SERVER 120
TESTING THE DEVELOPMENT ENVIRONMENT 120

SECTION III: UNDERSTANDING THE MySQL DATABASE

11. DATABASE STORAGE ENGINES 123

ISAM Storage Engine 123
MyISAM Storage Engine 124
Heap Storage Engine 124
Merge Storage Engine 125
InnoDB Storage Engine 126
BDB Storage Engine 127
Example Storage Engine 127
Federated Storage Engine 127
Archive Storage Engine 128
CSV Storage Engine 128
TRANSACTION-SAFE V/S NON-TRANSACTION-SAFE TABLES 129

12. MySQL DATABASE ADMINISTRATION 131

INVOKING MySQL 131
ACCESSING COMMAND LINE HELP IN MySQL 133
Help On SQL Commands 133
SETTING UP THE root PASSWORD IN MySQL 134
Setting The root Password 135
Using The mysqladmin Utility 135
Logging Into MySQL After Setting The root Password 135
CREATING A SUPER USER 136
ADDING NEW USERS TO MySQL 136
Viewing Existing Grants 138
MANIPULATING THE MySQL USER PRIVILEGE TABLE DIRECTLY 139
DELETING USERS FROM MySQL 141
CREATING PASSWORDS FOR USERS 142
Setting A Password 143
Using UPDATE Statement 143
Using SET PASSWORD 143
Using GRANT Statement 144
USING DATABASES 144
Creating A Database 145
SHOW DATABASES Command 145
Case-Sensitivity 146
USE Command 147
Database Ownership 147
Destroying Database 149
BACKING UP MySQL DATABASES AND THEIR CONTENT 149
Backing Up MyISAM Tables 149
Backing Up InnoDB Tables 150
Backing Up Using The mysqldump Utility 151
Backup 151
Restore 153

13. BASIC SQL ELEMENTS 155

TEXT TYPES 156
Char(size) 156
Varchar(size) 156
Blob 157
Text 157
Binary And Varbinary 157
NUMBER TYPES 158
Int(size) 158
Float 158
Decimal(p, s) 159
Double(p, s) 159

DATE TYPES 160
Date 160
Datetime 160
Timestamp 160
Year 160
Time 161
MISC TYPES 162
Enum() 162
Set 162
ENTITY RELATIONSHIP DIAGRAM 162
Subscriber Management 163
Books, Publishers and Author Management 163
Customer, Employee And Order Management 164
Sales Management 164
Assorted Tables 165

14. TABLE CREATION 167

RULES FOR CREATING TABLES 167
A BRIEF CHECKLIST WHEN CREATING TABLES 168
CREATING TABLES 168
DISPLAYING A TABLE'S STRUCTURE 171

15. WORKING WITH TABLE DATA 173

Insert Data In Specific Columns 174
LOADING DATA INTO A TABLE 176
GLOBALLY RETRIEVING DATA FROM TABLES 177
All Rows And All Columns 177
Retrieving Filtered Table Data 178
Selected Columns And All Rows 178
Selected Rows And All Columns 179
Selected Columns And Selected Rows 180
MULTIPLE SELECT STATEMENTS 181
NON-DUPLICATE ROWS 182
SORTING DATA IN A TABLE 185
SELECTING RECORDS FROM THE BEGINNING OR END OF A RESULT SET 187
PULLING A SECTION FROM THE MIDDLE OF A RESULT SET 189
DELETING DATA FROM TABLES 191
Delete All Rows 192
Delete Specific Row(s) 192
UPDATING DATA IN TABLES 192
Updating All Rows 193
Update Specific Row(s) 193
FINDING OUT THE TABLE/S CREATED BY A USER 194
SHOW CREATE TABLE Command 195
CREATING A TABLE FROM A TABLE 196

INSERTING DATA INTO A TABLE FROM ANOTHER TABLE 198
Insertion Of A Data Set Into A Table From Another Table 198
REMOVAL OF SPECIFIC ROW/S BASED ON THE DATA HELD BY THE OTHER TABLE .. 199

16. WORKING WITH TABLE AND ITS STRUCTURE 201

ADDING NEW COLUMNS 202
Adding New Columns At A Specific Location 203
Adding New Column As The First Column 204
DROPPING A COLUMN 205
MODIFYING EXISTING COLUMNS 206
Modifying Existing Column And Shifting It To A Specific Location 207
Modifying An Existing Column And Make It The First Column 208
RENAMING EXISTING COLUMNS 209
Renaming An Existing Column And Shifting It To A Specific Location 210
Renaming An Existing Column And Making It The First Column 212
RENAMING A TABLE USING ALTER TABLE 213
CHANGING A TABLE ENGINE 213
RENAMING TABLES 216
TRUNCATING TABLES 216
DESTROYING TABLES 217

17. OPERATORS AND REGULAR EXPRESSION 219

ARITHMETIC OPERATORS 219
Renaming Columns Used With Expression Lists 221
LOGICAL OPERATORS 222
AND Operator 222
OR Operator 223
Combining AND And OR Operator 223
NOT Operator 225
SEARCHING FOR SPECIFIC DATA 225
Range Searching 225
Pattern Matching 226
LIKE Predicate 226
IN And NOT IN Predicates 229
Regular Expressions 230

18. GROUPING DATA 235

THE CONCEPT OF GROUPING 235
GROUP BY Clause 236
HAVING Clause 237
Determining Whether Values Are Unique 239
GROUPING BY EXPRESSIONS RESULTS 240
GROUPING BY TABLE COLUMN POSITION 241
ADVANCED GROUPING OPERATIONS 242
Group By Using ROLLUP Operator 242

19. JOINS 245

JOINING MULTIPLE TABLES [EQUI JOINS] 245
Join Styles 246
Inner Join 247
Outer Join 249
Cross Join 251
GUIDELINES FOR CREATING JOINS 253
JOINING A TABLE TO ITSELF [SELF JOINS] 253

20. VIEWS 259

Renaming The Columns Of A View 261
Viewing Data Using A View 262
Filtering Data From Views 262
Updateable Views 263
Inserting Records Using View 263
Updating Records Using Views 265
Common Restrictions On Updateable Views 266
Deleting Records Using View 266
View Creation Using Multiple Tables 267
Altering Views 268
Destroying A View 269

21. FUNCTIONS 271

AGGREGATE FUNCTIONS 272
NUMERIC FUNCTIONS 275
STRING FUNCTIONS 282
Retrieve Records Based On Sounds 294
Formatting Text Using MySQL Commands 297
Manipulating Text Using MySQL Commands 299
DATE FUNCTIONS 302
Limitations For Column's Default Value 303
Datetime Conversion Functions 306
Decomposing Dates And Times Using Formatting Functions 309
Decomposing Dates Or Times Using Component-Extraction Functions 309
Decomposing Dates Or Times Using String Functions 310
Converting Between Times And Seconds 310
Converting Between Dates And Days 311
Performing Leap Year Calculations 312
Determining Whether A Date Occurs In A Leap Year 312
MISCELLANEOUS FUNCTIONS 313
Determining Current Client User 313
Determining Current Database 314

22. DATA CONSTRAINTS 315

APPLYING DATA CONSTRAINTS 315
Column Level Constraints 316
Table Level Constraints 316
TYPE OF DATA CONSTRAINTS 317
I/O Constraints 317
Primary Key 317
Primary Key Constraint Defined At Column Level 318
Primary Key Constraint Defined At Table Level 319
Auto Generate Primary Key Values For A Table 321
Foreign Key 322
Foreign Key Constraint Defined At Column Level 325
Foreign Key Constraint Defined At Table Level 326
Foreign Key Constraint Defined With ON DELETE CASCADE 327
Unique Key Constraint 329
The Unique Constraint Defined At Column Level 330
The Unique Constraint Defined At Table Level 331
NULL Value Concepts 332
The NOT NULL Constraint Defined At Column Level 333
Working With NULL Values 334
Negating A Condition On A Column That Contains NULL Values 336
Replacing NULL Values With Other Values For Display 338
Specifying A Default Value For A Table Column 339
Business Rule Constraints 341
Check Constraint 342
Check Constraint Defined At Column Level 342
Check Constraint Defined At Table Level 342
ASSIGNING USER DEFINED NAMES TO CONSTRAINTS 342
Defining Different Constraints On A Table 345
DEFINING INTEGRITY CONSTRAINTS USING THE ALTER TABLE COMMAND 347
DROPPING INTEGRITY CONSTRAINTS USING THE ALTER TABLE COMMAND 349
EXPLAIN SELECT STATEMENT 350

23. SUBQUERY 355

24. UNION 365

25. INDEXES 371

ADVANTAGES AND DISADVANTAGES OF INDEXING 372
CREATING INDEXES 373
Simple Index 373
Composite Index 374
Unique Index 375
MULTIPLE INDEXES 377
Problems With Indexes 378
DROPPING INDEXES 378

SHOW INDEX COMMAND 379
MYSQL FULL-TEXT SEARCH 380

26. STORED PROCEDURES 385

Why Use Stored Procedures 386
Structure Of Stored Procedure 386
SUPPORTED SQL STATEMENTS IN PROCEDURES 387
Creating Dynamic Procedures 389
Using The IN Parameter 389
Adding Records To The Table Using Procedure With In Parameter 389
Deleting Records Using A Procedure 391
Using The OUT Parameter 393
Using The INOUT Parameter 394
Retrieving Table Data From Stored Procedure Using Variables 396
Dropping A Procedure 397

27. TRANSACTIONS 399

MySQL Transactions 400
Closing Transactions 400
Automatic Commits 400
COMMIT 401
Statements That Cause An Implicit Commit 402
ROLLBACK 402
SAVEPOINT 403

28. CURSORS 413

Explicit Cursor 414
Declaring Cursors 414
The Functionality Of Open, Fetch And Close Commands 414
Opening A Cursor 415
Fetching A Record From The Cursor 415
Closing A Cursor 416
Handlers 416

SECTION IV: UNDERSTANDING THE PHP LANGUAGE

29. MIXING PHP AND HTML 423

GETTING STARTED 431
Writing PHP 431
Naming Files 431
Comments 431
The Semicolon 432
Delivering Text As Output 432
White Space 432

Running The PHP Script - myFirst.php 433

30. VARIABLES AND OPERATORS 435

DATA TYPES 435
VARIABLES 436
Numbers 438
Strings 439
Joining Strings 442
Variable Scope 443
Variable Variables 447
PHP Super Globals 448
CONSTANTS 449
HERE DOCUMENTS 451
OPERATORS 453
Unary Operators 453
Negation Operators 453
Increment / Decrement Operators 454
Cast Operators 455
Binary Operators 456
Numeric Operators 456
Assignment Operators 457
Concatenation Operator 458
Comparison Operators 459
Logical Operators 460
Bitwise Operators 460
Ternary Operator 461
Operator Precedence 462
References 463
ARRAYS 465

31. FLOW CONTROL STRUCTURES 469

CONDITIONAL STATEMENTS 469
if Statement 470
Executing Multiple Statements 470
elseif Clause 473
switch Statement 476
ITERATIONS 479
for Loop 480
while Loop 483
Controlling An Array Using A while Loop 485
do...while Statement 487
foreach Loop 489
Infinite Loops 491
Special Loop Keywords 492
Loops Within Loops 493
Mixed-Mode Processing 497

32. FUNCTIONS 499

USER-DEFINED FUNCTIONS 500
Functions With Arguments 501
Functions With Multiple Arguments 501
Functions Accepting And Returning Values By Reference 504
Functions Accepting And Returning Values By Value 506
Accessing Global Variables Within A Function 507
Globalizing Functions 507
Functions In Files 508
Recursion 509
Anonymous Functions 512
BUILT-IN FUNCTIONS 512
print() 513
include() 513
header() 514
phpinfo() 515
PHP SERVER VARIABLES 516
Functions For Variables 521
Controlling Script Execution 524
Array Functions 526
WORKING WITH DATE AND TIME 533
date() 533
time() 536
Converting From A String 536
Converting From Components 539
PERFORMING MATHEMATICAL OPERATIONS 540
Rounding Up A Number 540
Randomization 542
Other Mathematical Conversion Functions 544
Mathematical Constants 546
WORKING WITH STRING FUNCTIONS 547
Extracting Part Of A String 547
Finding A String Within A String 548
Returning The First Occurrence Of A String 550
Replacing Parts Of A String 551
Converting To And From ASCII 552
Measuring Strings 552
Trimming Whitespace 555
Wrapping Lines In Text Messages 556
Changing String Case 557
Secure Data Hash 558
Printing Number Formats 561
String Padding 562
Complex String Printing 564
Pausing Script Execution 565

33. REGULAR EXPRESSIONS 569

Regular Expression Engine 570
Common Uses Of Regular Expressions 570
Types Of Regular Expressions 571
Regular Expression Functions 572
Symbols Used In Regular Expressions 573
Using ^ and $ 573
Using *, + and ? 573
Using Bounds {} 573
Using Quantifiers 574
Using | The OR Operator 574
Using . The Period 574
Using [ ] Bracket Expressions 575
Using Regular Expression Functions 575
Matching Patterns 575
Replacing Patterns 582
Array Processing 585

34. WORKING WITH DATABASE [MySQL] 601

THE PHP MySQL ARCHITECTURE 602
THE PHP API 603
GETTING STARTED 603
Creating MySQL DB Table 603
Connecting To The MySQL Db Engine 604
Persistent Connection 605
Selecting The Database 607
Executing Commands 608
Inserting Data 609
Extracting Data 610
Updating Data 614
Deleting Data 615
Closing The Database Connection 616
DEMONSTRATING PHP AND MySQL INTERACTION USING A FORM 616
Form Specification 617
Files Included 617
Functions Declared 617
Form Details 617
Data Fields 618
Data Controls 618
Skeleton Of The Code Spec 618
The GuestBook Form Code Spec 623
dosql.php Which Processes The Output Of The HTML Form 630
Connecting To The MySQL DB 630
Inserting Data Into GuestBook 631

Updating Data In GuestBook 632
Deleting Data From GuestBook 634
Logic Flow Of The GuestBook.php Code Spec 635

35. WORKING WITH MySQLi 639

The PHP API 640
GETTING STARTED 641
Creating MySQL DB Table 641
Connecting To A MySQL Db Engine Running In Memory 642
Persistent Connections 644
Selecting The Database 646
Executing Commands 649
Inserting Data 650
Extracting Data 652
Updating Data 660
Deleting Data 661
Freeing Up The ResultSet 662
Closing The Database Connection 663
DEMONSTRATING PHP AND MySQLi INTERACTION USING A FORM 664
Form Specification 665
Files Included 665
Functions Declared 665
Form Details 665
Data Fields 665
Data Controls 665
The GuestBook Form Code Spec 666
dosql.php Which Processes The Output Of The HTML Form 669
Connecting To The MySQL DB 669
Inserting Data Into GuestBook 670
Updating Data In GuestBook 671
Deleting Data From GuestBook 673

36. WORKING WITH PDO [PHP DATA OBJECT] 675

THE PHP PDO API 678
Getting Started 678
Creating DB Table 679
Connecting To The Database 679
Closing The Database Connection 680
Executing Commands 681
Inserting Data 682
Extracting Data 683
Updating Data 686
Deleting Data 687
DEMONSTRATING PHP AND MySQL INTERACTION USING A FORM 688
Form Specification 689
Files Included 689

Functions Declared 689
Form Details 689
Data Fields 689
Data Controls 689
The GuestBook Form Code Spec 689
dosql.php Which Processes The Output Of The HTML Form 693
Connecting To The MySQL DB 693
Inserting Data Into MySQL Db Table 694
Updating Data In GuestBook 695
Deleting Data From GuestBook 697

37. COOKIES 699

MARKING OF THE BROWSER BY THE WEB SERVER 700
THE CONTENTS OF A COOKIE 701
DIFFERENT TYPES OF COOKIES 701
Permanent / Persistent Cookies 701
Session / Transient Cookies 702
WHERE COOKIES ARE USED 702
Where Are Cookies Placed 703
Understanding How Cookies Are Used 703
Yahoo.com And Cookies 704
ADVANTAGES OF COOKIES 707
CREATING COOKIES USING PHP 707
Domain Information 708
Path Information 708
Expiry Information 708
Secure Parameter 708
WORKING WITH COOKIES 709
An Open Bug In PHP 6 [Development Snapshot] 709
Setting Cookies Using PHP 710
Destroying A Cookie 711
Assigning Multiple Values To A Cookie 711
Retrieving Multiple Values From A Cookie 712
AUTOMATIC LOGIN 714
The Focus 715
The Solution 715
The RunTime 722
The Working 731

38. SESSIONS 735

PHP SESSION MANAGEMENT RULES 737
THE PHPSESSID COOKIE 738
VERIFYING SESSION SUPPORT IN PHP 738
STORING, RETRIEVING AND DELETING DATA FROM SESSION VARIABLES 739
Storing Values In Session Variables 739

Retrieving Values From A Session Variable 740
Deleting Values From A Session Variable 741
PHP SESSION FUNCTIONS 741
session_start() 742
session_destroy() 745
session_id() 746
A MINI SHOPPING CART 747
The Focus 749
The Solution 750
The RunTime 760
The Working 768

39. OBJECT ORIENTED PROGRAMMING 781

BASIC UNDERSTANDING 782
Objects 782
Defining A Class 782
INSTANTIATION AND ACCESSING METHODS AND PROPERTIES 784
CONSTRUCTORS 786
DESTRUCTORS 787
CLASS CONSTANTS 788
$THIS KEYWORD 790
SCOPE RESOLUTION OPERATOR [::] 791
SELF AND PARENT KEYWORDS 791
EXTENDING A CLASS 792
CLASS ABSTRACTION 794
OBJECT INTERFACES 795
implements Keyword 796
instanceof Operator 797
OBJECT CLONING 797
OBJECT COMPARISON 799
FINAL KEYWORD 801
final Methods 801
final Class 801
MAGIC METHODS 802
__sleep and __wakeup 802
NAMESPACE 803
Referring To A Class In A Namespace 805
Importing Namespace 805
Sub Namespaces 806
Adding Functions 807
Empty Namespace 807
Constant Namespace 808
Adding A Class 809
Rules For Resolving Names inside Namespace 809
OBJECT ORIENTED PROGRAMMING WITH MySQL Db 811

40. DEBUGGING AND ERROR HANDLING 837

GOOD PROGRAMMING PRACTICES 838
Visual Examination Of Code Spec 838
Coding Style 838
To Improve Code Spec Readability 839
Commenting Code Spec 840
Meaningful Variable Names 840
Functions 841
PHP Code Block Indicators 841
ERROR HANDLING IN PHP 841
Displaying Errors 842
Type Of Errors 843
Syntax Or Parse Errors 844
Fatal Errors 846
Warnings 847
Notices 848
Logical Errors 849
Environmental Errors 851
Runtime Errors 852
Core Errors 853
Compile Errors 854
User Defined Errors 854
Error Levels In PHP 854
Setting Error Reporting Level Via php.ini 855
Setting Error Reporting Level Using error_reporting() 857
Logging Errors 861
What Is A Log 861
error_log() 861
Using php.ini To Set Error Log File Path 863
Logging Errors To A File 864
Logging Errors Using syslog 866
trigger_error() 870
Return Values 870
Ignoring Errors 871
Acting On Errors / Exceptions 873
Try Block 873
Catch Block 874
Throw Statement 874

41. WEB SERVICES USING SOAP 879

SOAP 880
SETTING UP PHP AND SOAP ENVIRONMENT 881
BUILDING A WEB SERVICE 882
Creating MySQL DB Table 882
Creating A SOAP Server [server.php] 883

Creating A WSDL Document 885
What Is A WDSL Document 885
Anatomy Of WSDL Document 885
Definitions 886
Types 887
Messages 888
Relationship Between Types And Messages 890
Port Types 890
Relationship Between Client and Server Code Spec, Messages And Port Types 892
Bindings 892
Relationship Between Port Types And Bindings 894
Services 895
Creating bookdetails.wsdl 895
Creating A SOAP Client [client.php] 897
RUNNING THE WEB APPLICATION 899

SECTION V: APPLICATION DEVELOPMENT

42. CONTACT MANAGEMENT 901

Platform Specifications 902
Virtual Host Configuration 903
Table Creation In The MySQL Db 903
ContactMst 903
Column Definition 903
Table Description 903
MailLog 904
Column Definition 904
Table Description 905
ZipCode 905
Column Definition 905
Table Description 906
The Code Spec And The Functionality Of The Files Included 906
style.css 906
database.php 908
databaseTables.php 910
general.php 910
configure.php 911
zipCode.php 913
reminder.php 914
sendBulkEmail.php 916
jquery-1.1.4.js 917
FORM SPECIFICATIONS 918
contacts.php 918
Files Included 918
Form Details 918

Data Fields 918
Data Controls 919
Code Spec 919
contactsConfirm.php 935
Files Included 935
Form Details 935
Data Controls 935
Code Spec 936
contactThankYou.php 944
Files Included 944
Code Spec 944
EXECUTING THE APPLICATION 945

43. CONSTRUCTING AN RSS WIDGET 955

BUILDING AN RSS WIDGET 956
Expected Program Flow 960
Files Used 961
Form Specifications 962
Data Fields 962
Data Controls 962
Code Spec And The Functionality 962
index.html 962
style.css 964
ajaxfunctions.js 967
placeholders.js 974
readRSS.php 1000
EXECUTING / RUNNING THE APPLICATION 1003

44. CONSTRUCTING NEWSLETTER DELIVERY SYSTEM 1017

REQUIREMENTS 1018
Platform Specifications 1018
Virtual Host Configuration 1018
Table Creation In The MySQL Db 1019
Newsletter Table 1019
Members Table 1019
Form Specifications And Code Specs 1020
index.php 1020
Files Included 1020
Data Controls 1020
Code spec 1020
addnews.php 1022
Files Included 1022
Functions Declared 1022
Form Details 1022
Data Fields 1022

Data Controls 1023
Code spec 1023
editletter.php 1027
Files Included 1027
Form Details 1027
Data Fields 1027
Data Controls 1028
Code spec 1028
deleteletter.php 1032
Code spec 1032
show.php 1032

SECTION VI: LINUX ON VIRTUAL MACHINE

47. CENTOS ON SUN VIRTUALBOX 1119

INTRODUCTION TO VIRTUALIZATION 1119
SUN VIRTUALBOX 1120
Supported Hosts 1120
Windows Hosts 1120
Apple Mac OS X Hosts 1121

Linux Hosts [32-bit and 64-bit] 1121
Solaris Hosts [32-bit and 64-bit] 1121
Supported Guests 1121
DOWNLOADING SUN VIRTUALBOX 1122
INSTALLING SUN VIRTUALBOX ON A WINDOWS OS [HOST] 1122
SETTING UP A NEW VIRTUAL MACHINE 1126
INSTALLING CENTOS 5.3 ON THE VIRTUAL MACHINE 1133
Obtaining CentOS 1133
Loading CentOS ISO Into Virtual Machine 1134
Running The VM 1136

SECTION VII: APPENDIX

A. phpMyAdmin 1139

HISTORY 1139
DOWNLOADING 1140
INSTALLING phpMyAdmin 1140
STARTING phpMyAdmin 1143
GETTING STARTED WITH phpMyAdmin 1145
Creating Database 1145
Destroying Database 1146
Creating A User And Granting Permissions 1147
Working With Tables 1150
Creating A Table 1150
Populating The Table With Data 1153
Retrieving Data From Tables 1156
Retrieving All Rows and Columns 1156
Retrieving Selected Columns And All Rows 1157
Retrieving Selected Rows And All Columns 1159
Retrieving Selected Columns And Selected Rows 1161
Deleting Data From Tables 1162
Updating Data In Tables 1163
The Structure Of A MySQL Database 1165
The Structure Of A MySQL Table 1166
Restructuring Tables 1167
Adding New Columns 1167
Dropping A Table Column 1170
Modifying Existing Table Columns 1170
Renaming A Table 1173
Truncating A Table 1175
Destroying A Table 1176
LOGGING OUT FROM phpMyAdmin 1177
